React and **TypeScript Frontend Developer** with AI integration experience and unique user empathy from 10 years in customer-facing roles. Built **AI-powered dental platform** and currently launching **gym aggregator platform for travelers.** Based in Spain, open to remote opportunities.

Experience

Founding Frontend Developer
NomadGym

Sept 2025 – Present
nomadgym.es

- **Initiated frontend architecture** for a centralized gym aggregator platform, collaborating with two non-technical co-founders.
- Currently developing the core application logic to facilitate traveler access to partner gyms across Spain with **unified passes**.
- Driving **key technical implementation** of user authentication and account management using **Next.js, TypeScript,** and **Appwrite.**
- Implementing comprehensive **test coverage** with **Vitest** and **React Testing Library** to ensure code quality and maintainability.

Frontend Developer Intern
Pineapple Practice

Aug 2024 – Nov 2024
remote

- **Led development** of animal shelter adoption platform,implementing a **catalog interface** and **interactive filtering** using **JavaScript** and **SASS**.
- Collaborated with **cross-functional team** including UX/UI designer, 2 backend engineers, and 4 QA testers in **Agile** environment with bi-weekly sprints using **ClickUp.**
- Delivered project presentation to **30+** interns and mentors, contributing to successful **acquisition** by an external client.

Customer Service & Client Relations
Clinica Eividental — Ibiza Airport — Intercorp Group

May 2014 – Aug 2024
Ibiza

- **10 years** managing **customer experience** in aviation industry, healthcare, and hospitality sectors.
- Provided **multilingual** support (RU/EN/ES/FR) in **high-pressure** environments.
- Contributed to **60% market growth** by securing Russian market.
- Developed deep understanding of **user pain points** now applied to frontend development.

Projects

DENTAHUB - AI-Enhanced Dental Platform | June 2025 - Aug 2025
Website | Source Code

- Developed a **full-stack** platform for dental patient engagement, integrating an **OpenAI-powered chatbot** and safety-first **prompts** to direct medical questions to professionals.
- Implemented **a patient dashboard** supporting real-time **appointment tracking**, **digital onboarding**, and **secure document upload** using **Next.js**, **TypeScript**, and **Appwrite**.
- Developed an appointment management **admin panel** with **Twilio API** integration for **SMS notifications**, enabling real-time updates and oversight of bookings for clinic staff.
- Applied intuitive design using **Tailwind CSS** and **shadcn/ui** for **better UX** and **reduced** registration friction.

CV CREATOR - Real-Time Bilingual Résumé Builder | Jan 2025 - Feb 2025
Website | Source Code

- Developed a **bilingual (EN/ES)** résumé builder using **React 18** , **react-hook-form** , **CSS3** with **instant content updates**.
- Configured browser API integration to provide seamless **PDF export and print** options for optimal formatting.
- Integrated **Local Storage** API for automatic data persistence preventing accidental data loss.

Education & Certifications

Nevsky Institute of Language and Culture | *Translation and Interpretation*

Certifications: **Meta Front-End Developer (Coursera)** | **The Ultimate React Course (Udemy)**

Skills

Frontend: HTML5, React, Redux, Next.js, Typescript, Javascript, Tailwind CSS, shadcn, Responsive design

Development Tools: Git, Appwrite, REST APIs, OpenAI API, Vite

Languages: Russian, English, Spanish, French
